

Aligning Supply Chain Organizations

Overview

Your complex supply chain relies on alignment in three critical areas to facilitate success: 1) between the supply chain and strategic objectives, 2) between function and process areas within the supply chain, and 3) between the organization and its suppliers and partners. Learn how to coordinate initiatives so that your enterprise functions seamlessly in service of the ultimate judge—your customers.

Who Should Attend

This program benefits those in a senior management or executive role responsible for supply chain oversight. Titles of participants have included:

- Director, US Supply Chain
- Vice President, Global Supply Chain
- Senior Supply Chain Research Analyst
- Logistics Management Specialist
- Manager of Customer Satisfaction

Program Benefits

Improve your ability to:

- Collaborate for increased profits, reduced costs, and improved visibility
- Smooth fluctuations in demand and synchronize supply and demand
- Enhance customer service, reduce stock outs, and improve product line ROIs
- Execute better supply chain performance through meaningful use of shared information and proven collaborative methodologies like CPFR, S&OP, and IBP/IBM

At Penn State

2-Day Short Course

Start Spring 2020 - TBD

End Spring 2020 - TBD

Location: University Park, PA

Value For You & Your Organization

Companies that understand how to successfully implement supply chain strategies related to collaboration, alignment, and synchronization quickly realize cost savings and are resilient through all economic climates. Our award-winning teachers, researchers, consultants, and practitioners understand today's leaders and the critical challenges they face. They will offer guidance before, during, and after each program.

"As the leader of the Global Supply Chain function, I'm better prepared to develop collaboration processes with internal functions and customers. Even though the process has already started, the course provided more insight on the +/- of doing things correctly with a strong consideration to change management issues."

Pedro Menendez

Vice President, Global Supply Chain
USG Corporation

Program Content

This program is taught by the very best business faculty and experienced practitioners from top organizations who will help you tie critical new perspective, concepts, and techniques to immediate application in the workplace.
